THE NORTH MUST BE HEARD IN OTTAWA

NDP Northern Development Critic Bevington highlights major problems and calls for Northern Leaders Summit

OTTAWA - For too long the concerns of the working families of the North have been not heard in the South. This has resulted in a dangerous lack of transparency. NDP Northern Development Critic Dennis Bevington will show how this lack of transparency has allowed the Conservative government to ignore the voices of ordinary Northerners. Northern leaders and former employees of the Nunavut Water Board will be joining Mr. Bevington via teleconference.
